Professional Summary

Experienced IT professional with 4.5 years of experience, including 1 year in Front-End Development and strong background in enterprise application support. Skilled in building responsive web applications using React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, and Sass, with experience in REST API integration and mobile-first design. Proficient in application monitoring, incident management, SQL-based system analysis, and troubleshooting production issues. Experienced with Git, Jest, ServiceNow, and AI-assisted development tools. Available for immediate joining.

Technical Skills

Frontend Technologies: JavaScript (ES6+), HTML5, CSS3, React, Next.js, jQuery, Responsive Web Design
Styling & UI Frameworks: SCSS, Bootstrap, Tailwind CSS, Accessibility (WCAG 2.1, ARIA, Semantic HTML, Keyboard Navigation)
Application & Production Support: Pega Application Support, Application Health Monitoring, System Performance Monitoring, Log Analysis, Dashboard Monitoring, Workflow Analysis (WSR), Incident Management, Patch & Backup Management, End-User Support
File Transfer & Enterprise Platforms: Axway Secure Transport, GlobalScape EFT, Cornerstone MFT, FTP/SFTP Administration
Databases: SQL (Performance Queries, Monitoring, Script Modification), SQL Server
Programming & Automation: C, C#, PowerShell, Batch Scripting
Tools & Platforms: Git, VS Code, Jira, ServiceNow, Figma, Adobe XD, Adobe Illustrator, Adobe Photoshop
Testing & Integration: Jest, API Integration, Debugging & Troubleshooting
AI Productivity Tools: GitHub Copilot, Codeium, Claude AI

Professional Experience

Front End Developer
Atos – Chennai, India | July 2024 – Sep 2025

- Developed and maintained responsive, cross-browser compatible web interfaces using HTML5, CSS3, JavaScript (ES6+), and React.js
- Converted Figma and Adobe XD design mockups into interactive, production-ready UI components
- Implemented mobile-first, accessibility-focused (WCAG), and usability best practices to enhance user experience

- Integrated RESTful APIs in collaboration with backend developers to ensure seamless data flow to UI components
- Identified and resolved UI bugs, optimized page load performance, and improved layout consistency
- Collaborated closely with developers, designers, and stakeholders to deliver scalable and user-centric UI solutions

Senior Associate Engineer
Atos – Chennai, India | July 2023 – June 2024

- Successfully performed health checks on Pega applications, continuously monitored and resolved issues to ensure optimal performance and system reliability.
- Regularly monitored system performance and health through dashboards and alerts, proactively addressing potential issues before they impacted operations.
- Efficiently performed routine maintenance tasks including applying patches, backups, and updates, ensuring the system remained up-to-date and secure.
- Utilized Pega tools to review system logs and health metrics, preemptively identifying and addressing issues to maintain system stability.
- Ran SQL queries to monitor application performance and modified scripts to check and analyze system behaviours.
- Provided expert technical support and guidance to end-users, helping them navigate the system and resolve functional issues effectively.
- Leveraged Work Status Report (WSR) graphs to monitor and analyze workflow performance, task statuses, and overall system health, contributing to improved process efficiency.
- Resolved user-reported bugs or functional issues promptly and escalated complex problems as needed, ensuring timely and effective solutions.
- Engaged in ongoing learning and professional development to stay current with industry advancements and continuously improved skills and knowledge.

Associate Consultant
Atos – Chennai, India | May 2021 – July 2023

- Developed extensive knowledge and experience with Windows, ServiceNow, Globalscape, and Cornerstone MFT, effectively managing and supporting 4,000 active Secure Transport accounts, 2,000 GlobalScape accounts, and 800+ Cornerstone MFT accounts.
- Provided high-level support for Secure Transport, GlobalScape, and Cornerstone MFT platforms, including troubleshooting and resolving FTP/SFTP file transmission issues, and administering Axway Secure Transport and FTP GlobalScape tools.
- Utilized ServiceNow for efficient ticketing and incident management, enhancing the resolution process and maintaining high service quality.
- Developed and executed successful migration plans by collaborating with cross-functional teams to meet project objectives within deadlines, minimizing downtime and ensuring seamless transitions.
- Created and maintained BAT (Batch) scripts to automate routine tasks such as system maintenance, backups, and data processing. Regularly updated scripts to improve efficiency and compliance with evolving requirements.
- Configured new transmission setups using SFTP/SSH, gathered vendor business requirements, and implemented advanced workflows as per project/client specifications.

- Implemented WinSCP/PowerShell in GlobalScape event rules, managed the GlobalScape workspace module, and configured logging modules (PGP/WinSCP/Inbound/Outbound/Advanced Workflow).
- Generated and managed SSH and PGP keys for secure file transmissions, contributing to enhanced security measures.
- Generated reports for GlobalScape and managed Public DNS in Oracle, Dyn Portal, MarkMonitor, and Imperva, including the creation and modification of records.
- Worked closely with business owners, external clients, and the NETWORK and FIREWALL teams to address technical issues and resolve port blocking problems. Configured event rules for automated transfers and managed SSL certificate creation and renewal.

Education

Bachelor of Engineering – Computer Science and Engineering
St. Xavier's Catholic College of Engineering, India | Aug 2016 – Aug 2020

Certifications

- **Complete Web Development Course** — Udemy (Feb 2025)
  Focused on modern frontend development including HTML5, CSS3, JavaScript, React.js, responsive design, REST API integration, and real-world project implementation.
- **Web Technologies & UI/UX Design** — Image Creative Education (May 2024)
- **Database Design and Programming with SQL** — Oracle Academy (August 2020)
